Our Purpose

The Association of Desk and Derrick Clubs (ADDK) is a non-profit, international organization whose purpose is to promote the education and professional development of individuals employed in or affiliated with the petroleum, energy, and allied industries and to educate the general public about these industries.

Our Mission

Our mission is to enhance and foster a positive image to the global community by promoting the contribution of the petroleum, energy, and allied industries through education by using all resources available.

WHEN GAS BECOMES CHEAPER, AMERICANS BUY MORE EXPENSIVE GAS

By **BINYAMIN APPELBAUM** | **THE NEW YORK TIMES**

When gas prices fall, Americans reliably do two things that don't make much sense.

They spend more of the windfall on gasoline than they would if the money came from somewhere else.

And they don't just buy more gasoline. They switch from regular gas to high-octane.

A new report by the JPMorgan Chase Institute, looking at the impact of lower gas prices on consumer spending, finds the same pattern as earlier studies. The average American would have saved about \$41 a month last winter by buying the same gallons and grades. Instead, Americans took home roughly \$22 a month. People, in other words, used almost half of the windfall to buy more and fancier gas.

This is not rational behavior. Americans spent about 4 percent of pretax income on gas in 2014. One might expect them to spend about the same share of any windfall at the pump — maybe a little more because gas got cheaper. Instead they spent almost half.

Americans, in short, have not been behaving like the characters in economics textbooks. *(continued on pg. 2)*

(continued from page 1)

There is, however, a pretty good explanation for this kind of pattern. Researchers have found that people treat money as earmarked for particular kinds of spending, a tendency behavioral economists call "mental accounting." If someone is buying rounds at the neighborhood bar, people tend to treat the money they didn't spend as "beer money," and sooner or later they tend to spend it disproportionately on beer. As a result, they end up drinking more beer than they had originally intended.

The JPMorgan study compares gas spending between December 2013 and February 2014, when prices averaged \$3.31 a gallon, with gas spending by the same people in the same period one year later, when average prices were one dollar lower. The study found that the average American spent \$136 per month on gas during the high-price period and \$114 per month on gas during the low-price period. While the price of gas fell by roughly 30 percent, spending on gas declined by only 16 percent.

The study, based on the spending patterns of about one million JPMorgan customers, does not track the kind of gas consumers purchased. It shows that people bought more gas as prices fell, and that the increase in consumption is not sufficient to explain the entirety of the increase in spending on gas.

Professors Hastings and Shapiro showed that households adjusted their gas consumption much more sharply in response to changes in gas prices than in response to equivalent changes in overall income. In the fall of 2008, for example, as gas prices fell amid a broad economic collapse, consumers responded as if the decline of gas prices were the more important event, significantly increasing purchases of premium gas.

Moreover, this behavior was prevalent: 61 percent of the households made at least one irrational gas purchase. People "treat changes in gasoline prices as equivalent to very large changes in income when deciding which grade of gasoline to purchase," they wrote.

Economic models are simplifications. As in Jorge Luis Borges's parable of a map that grew to be the same size as the empire it charted, there is no purpose in a

model that captures all of the messy complexity of reality. Models are helpful because they leave things out. And patterns of irrational behavior are often dismissed as insignificant variations. Economists didn't think people actually spent windfalls on exactly the things they wanted most. But they regarded the reality as close enough.

The kind of extensive and detailed data used by JPMorgan and the earlier study, however, are making it possible not only to see the complexity beneath the simplification, but also to aggregate all of those variations into a significantly different big picture.

A government devising a targeted tax cut, for example, would do well to remember that people are likely to spend the savings near the target

And consumers would do well to remember that premium gas is usually a waste of money.

MEETING INFORMATION

- Our meetings are generally held the second Thursday of each month at 6:00PM at the Royal Oaks Country Club. (7915 Greenville Ave | Dallas, TX 75231)
- The cost of dinner is \$30, cash or checks made payable to Lone Star Desk and Derrick Club of Dallas | RSVPs must be made by the second Tuesday at 10:00AM unless otherwise stated.
- Prior to the meeting, there will be a Social Hour from 5:00-6:00PM with a cash bar.

NOVEMBER MEETING FLYER

THIS WILL BE OUR
LAST MEMBERSHIP
MEETING OF 2015

The Lone Star D&D Club of Dallas

Presents

“Acquisition & Divestiture”

MR. CHASE MORRIS | OIL & GAS ASSET
CLEARINGHOUSE

Thursday, November 12th
6:00 PM – 7:30 PM

SPEAKER BIO

Mr. Morris received his B.A. from the University of Texas Arlington and has more than 26 years of business development experience. Prior to joining The Clearinghouse, he was Vice President of Acquisitions & Divestitures/Business Development at Noble Royalties in Dallas, TX. His responsibilities included management, sales, marketing and organizational strategy for the Acquisitions and Divestitures team.

Mr. Morris also had 18 years of success in business development, marketing and management before his start in the energy industry. Mr. Morris is on the board of the East Texas ADAM as well as a member of the Independent Petroleum Association of America, the Texas Independent Producers and Royalty Owners Association and Louisiana Oil & Gas Association.

At the meeting's conclusion there will be a drawing for a free leadership book, as well as a drawing for a cash prize!

OIL AND GAS TERMS LETTERS "E" AND "F"

E&A

Abbreviation for exploration and appraisal.

E&P

Abbreviation for exploration and production.

ENHANCED OIL RECOVERY

A process whereby oil is recovered other than by the natural pressure in a reservoir.

EXPLORATION DRILLING

Drilling carried out to determine whether hydrocarbons are present in a particular area or structure.

EXPLORATION PHASE

The phase of operations which covers the search for oil or gas by carrying out detailed geological and geophysical surveys followed up where appropriate by exploratory drilling.

EXPLORATION WELL

A well drilled in an unproven area. Also known as a "wildcat well".

FARM IN

When a company acquires an interest in a block by taking over all or part of the financial commitment for drilling an exploration well.

FIELD

A geographical area under which an oil or gas reservoir lies.

FISHING

Retrieving objects from the borehole, such as a broken drillstring, or tools.

FORMATION PRESSURE

The pressure at the bottom of a well when it is shut in at the wellhead.

Installation of Officers & Directors

WHEN? Saturday, December 5th

WHERE? Café de France

TIME? 6:00pm – 9:00pm

COST? \$35 per person

Join the Lone Star Desk and Derrick Club of Dallas for dinner at our annual *Installation of Officers & Directors*, as we instate our 2016 Board of Directors. This event is open to members and non-members alike.

Invitations & RSVP cards will be mailed out in November

BREADED BRUSSELS SPROUTS

INGREDIENTS

- ❖ 1 ½ pounds Brussels sprouts ¼ cup butter or ¼ margarine, melted
- ❖ 1 teaspoon salt
- ❖ 4 tablespoons butter, melted
- ❖ 4 tablespoons grated parmesan cheese
- ❖ 4 tablespoons dried bread crumbs
- ❖ ¼ teaspoon garlic powder
- ❖ ¼ teaspoon ground black pepper
- ❖ ¼ teaspoon seasoning salt

DIRECTIONS

- ❖ Wash and trim Brussels sprouts. Cut an "X" about 1/8 inch deep in the stem of the sprouts (this helps cook the sprouts more evenly and quickly).
- ❖ In a medium-size pot, cover Brussels sprouts with water; add 1 teaspoon salt and bring to boil. Cover and simmer for 6 minutes or until tender; drain. Be careful not to overcook sprouts.
- ❖ Place sprouts in a small casserole dish. Sprinkle 2 tablespoons of melted butter over the sprouts and mix well to coat.
- ❖ Combine Parmesan cheese, dried bread crumbs, garlic powder, black pepper, seasoning salt, and remaining butter and mix well; sprinkle mixture over sprouts.
- ❖ Heat sprouts under broiler (about 4 inches away from heat) for about 5 minutes or until crumb mixture is lightly browned. Serve hot.

SEPT. MEETING RECAP

FOR OUR SEPTEMBER MEETING MR BRYAN BRUNO OF CAMERON INTERNATIONAL SPOKE TO OUR CLUB ABOUT WELLHEAD EQUIPMENT

THURSDAY, SEPTEMBER 10th | 6:00PM | LAS COLINAS COUNTRY CLUB

Cameron has 77 years of continuous history with 300 plus locations worldwide, 60 plus strong product brands, 11 operating divisions, \$8.0 BB in annual orders, 27,000 plus employees in over 100 countries. A Fortune 500 company with a strong balance sheet providing Leadership in every market segment served.

WELLHEAD BASICS – THREE MAJOR EQUIPMENT GROUPS:

1. Production or Christmas Tree– as assembly of valves, flanges, crosses, tees and chokes to control flow from (or into) a well.
2. Casing/Tubing Spools components
3. The casing housing

LONE STAR MEMBER REVIEWS

Bryan is an enthusiastic, entertaining speaker. The wellhead graphics helped me visualize the procedure for running pipe and BOPs. -CC

I found Bryan Bruno's (Cameron Wellheads) presentation at Las Colinas County Club to be very educational, informative and easily understood. Bryan's ability to keep everyone's attention with the added humor was delightful! -JB

I very much liked Mr. Bruno's presentation on Wellhead Equipment! We all deal with that in our business and as he said it is not an exciting topic but something we all very much need. Having been present on one of our wells that blew-out, I can tell you from firsthand experience that I am thankful for wellhead equipment. Mr. Bruno has an uncanny way of speaking to the layman (us) about what wellhead equipment is and how it works. Thank you for a great presentation. -PB

Bryan is very knowledgeable on the subject yet he has a way of presenting it to "rookies" so that we can understand. He did an excellent presentation and I know I learned a lot from it. I think we all benefit from understanding what goes on out in the field. It allows us to do a better job. -PM

Mr. Bruno's presentation on wellhead equipment was excellent! He is a great teacher in terms of delivering a presentation everyone can understand, and he incorporates slides that relate it directly to our club-such as the "crew" he used in the program. He is serious about the subject, yet injects humor so it keeps everyone entertained and interested. It was a very good presentation-I learned a lot! -JF

Being a Non-Op JIB Accountant, Bryan's presentation contained a wealth of knowledge and gave me a better understanding. He spoke in layman's terms we all could grasp the concepts. I'd certainly enjoy seeing another presentation from him. -GJ

Autumn is in the air!

When you start to see pumpkins out on everyone's front porch and the morning is cool and crisp, you know fall is on the way! This is my favorite time of year! Sitting outside and enjoying the cool morning air feels fabulous. It's also time to think about putting away the things of summer and bringing out your fall clothes and other fall items! Do you ponder the meaning of the seasons and what they truly mean to you? I love the change of seasons as it gives us an opportunity to think about change. How do you get ready for fall? What do you do differently when you think about the new year? Here at Lone Star, we are excited with the ideas of what we can bring to our club in the new year!! Join us as we journey into 2016! Don't miss out!

We elected our 2016 Executive Board of Lone Star at our October meeting and they will be installed on Saturday, December 6th. I hope everyone will volunteer when asked to participate on a committee or to take on a new role as a Committee Chairman. Volunteering is where the fun really begins! Your Lone Star members are a great group of get-it done individuals who like to have fun at the same time! Just ask anyone who attended the Second Annual Lone Star Shoot Out! We all had a great time while raising money for our Jo G. Gilmore Memorial Scholarship Fund. We are collecting scholarship applications until October 31st. Stay tuned for more details.

Leadership comes in many shapes and styles! Just look around at the leaders at your company, your church or your club. Leaders aren't born, they are made. Made with hard work. Take the lead and lift others up as you climb. Enjoy the journey and thrive!! Being a leader is rewarding! It's great to mentor someone and see how they develop and see how they thrive. Try it!

In my quest for education over the years, I have found education in the least expected places. Sometimes a new friend or co-worker with a simple invite opens up a wealth of knowledge just by inviting you to a meeting. This was my experience when I first attended a Desk and Derrick meeting in Shreveport. One invitation by a co-worker back in the early 80's and see where I am today; President of Lone Star. Please take a minute and invite your co-workers to a meeting and see if one day they become not only a member but a Committee Chair, Board Member and who knows; President of Lone Star. It all begins with one small invite! Give it a shot!

Technology is vastly changing our world one day at a time. Not only do we have wireless cell phones, but now we have access to email, music, podcasts and web surfing all at the touch of a button. I have recently taken on the challenge of learning via podcasts. I love it. My new podcasts are automatically downloaded every week and I listen to them at my leisure. I listen while I work out, clean the house, waiting at the Doctor's office, whenever I have a free moment. Have you tried Audible.com? It's great to get your new favorite book on audible and listen while you walk the dog or whenever. Learning is virtually at our fingertips!! Check it out!

October, 2015

We have just returned from an outstanding Convention and Educational Conference in Lubbock! For those of you who were unable to attend, you missed an awesome educational experience. Audra Horton, Rena Shaffer and the members of Region V are to be commended for a job well done. Each Region V Club and Member took their responsibilities and tasks seriously and presented an amazing event. From the exciting field trips, dynamic seminars and speakers along with opportunities to connect with our fellow members, it was a great time to be had by all. The Overton Hotel was absolutely beautiful and the management and staff went above and beyond to ensure that all of our needs were met.

This year we had 225 members in attendance, including 33 first-timers. I feel certain that we will see those same first-timers in Denver next year.

Elections were held at our Saturday Business Session, and I would like to congratulate and present to you the officers who lead us for 2016. They, along with the seven Regional Directors, will lead this Association and continue the forward progression of our Association.

President	Connie Harrison
President-Elect	Maggi Franks
Vice-President	Christina Forth-Matthews
Secretary	Penny Jacobs
Treasurer	Terry Ligon

Next month I will provide a more comprehensive recap of Convention, but did want to let you know that Proposed Amendments Nos. 1 and 3 were withdrawn by the club who presented them. The remaining Proposed Amendments all passed and will be effective January 1, 2016. You will be apprised when the updated Bylaws are posted to the ADDC website.

Lori Landry

Region IV Director's Newsletter

Cindy Miller
Region IV Director

miller154@suddenlink.net

As the Executive Assistant for Region IV three times I wondered what it would be like to be the Region Director at convention. I was nervous, excited but most of all I felt proud. Sharon Hlavinka and I drove up on Sunday we had great weather and a fun ride. The board field trip was amazing we started off at Texas Tech and toured the Terry Fuller, Petroleum Engineering Research Building. Our next stop was the Cowboys National Ranching Heritage Center, and then on to the Buddy Holly Museum. We had lunch at the Silent Wings Museum. The rest of the week was busy with Board meetings, a trip to the beautiful Palo Duro Canyon. Thanks to all the talented members in Region IV, who were awarded with a few AIMEES.

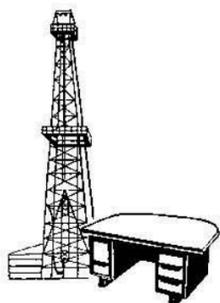

I gave a report highlighting some of the actives of the 10 clubs in Region IV, Members gained knowledge regarding environmental geology, audits in the petroleum industry, the Railroad Commission's history and mission, oil and gas activities within electric transmission lines, pipeline gas gathering, drilling exploration, fracking and air quality to name a few.

Some of our goals this year is simple...work on membership. That means work on educating and supporting the members we have and work on increasing our membership numbers. Technology has been implemented in Region IV with several clubs creating emails, web-sites, Facebook pages, etc.

Congratulations to the 2016 Board, do you see yourself as a Committee Chair, Region Representative, Club Officer? If you have questions any past or present board member will be happy to help.

I look forward to working with the other board members the rest of the year.

Cindy

ASSOCIATION OF
DESK AND DERRICK
CLUBS

THE LONE STAR MEMBER OF THE YEAR AWARD (LOMA)

The Lone Star Member of the Year Award was established to recognize an outstanding member of the Lone Star Desk and Derrick Club of Dallas each year.

1. Qualifications (Consideration should be limited to the current year):

- a) Must be a member of the Lone Star Desk and Derrick Club of Dallas.
- b) Demonstrate integrity of character and loyalty to Desk and Derrick
- c) Participates in activities of the club.
- d) Evidence leadership and overall good standing in the Club.
- e) Contributes time and effort to Desk and Derrick.

2. Procedures:

- a) Any member of the Lone Star Club may submit a candidate to the Awards/Scholarship committee no later than October 31st by writing a letter to the Awards Committee or Director of Rules detailing the qualifications of the nominee and the recommendation of the member.
- b) A Lone Star Club member is only allowed to receive the LOMA once.
- c) The candidate names and qualifications shall be presented to the Executive Board of Directors at the November Executive Board meeting. The board members in attendance, without discussion and by secret ballot, shall select one of the candidates to receive the award.
- d) The President and Director of Rules shall tally the ballots. In the absence of either President or Director of Rules, the designated alternate shall act for the absentee.
 - i. The award recipient shall be determined by majority vote of the Executive Board.

ii. If there are two (2) candidates and neither receives a majority vote after the second ballot, a lot shall be drawn to determine the winner.

iii. If there are more than two (2) candidates and no candidate receives a majority vote after the second ballot, only the names of the two (2) candidates receiving the highest number of votes on the second ballot shall be placed on succeeding ballots.

e) The candidates shall be notified in advance by the Awards Committee to assure attendance at Installation. There shall be no announcement regarding the unsuccessful candidates. The Awards/Scholarship Committee and Executive Board members will hold the names of the candidates in strict confidence until the award is presented. The name of the winning candidate shall not be revealed until presentation of the award at Installation.

f) It shall be the duty of this committee to obtain the award and bring it to Installation.

g) The Committee Chairman or other presenter of the LOMA shall give a brief summation of the determining qualities and activities of the recipient. The recipient shall be allowed time to accept the award and express appreciation.

3. The Lone Star Outstanding Member Award (LOMA) is a permanent file, which shall be kept intact and updated each year to include pertinent data such as resolutions, procedures, and names of award recipients.

GETTING TO KNOW OUR MEMBERS

Andrea Rea

Andrea Rea began her career in the Oil and Gas Industry in 2007 at Encana Oil & Gas (USA). She worked as a Record Technician in Central Records where her main focus was coordinating the divestiture and acquisition process.

As of 2015, Andrea has been employed with Covey Park Energy as a Lease and Records Technician. She is responsible for all activities involving record management including maintaining hard copy and electronic documents.

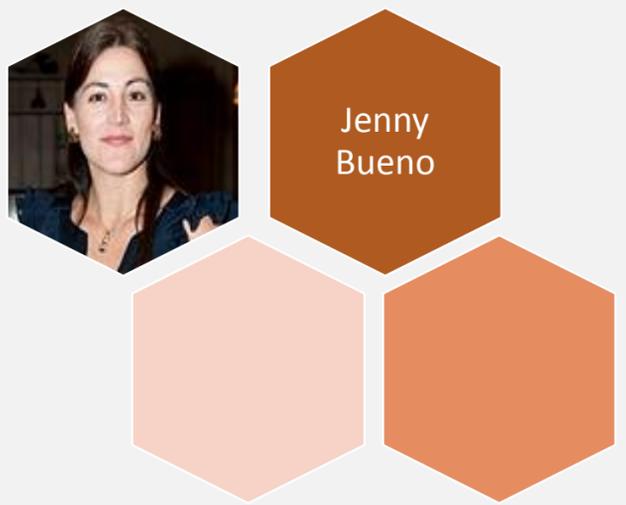

Andrea currently serves as Lone Star's 2nd Vice President, and she is also a charter member of the Lone Star Desk and Derrick Club of Dallas.

Jenny Bueno is the Contracts & Procurement Manager for Murchison Oil & Gas, Inc. She is responsible for vendor relations, purchasing, managing, and reviewing the company's supplier agreement.

She also acts as the company's insurance risk manager. Her previous background includes the telecommunications, film, and aerospace industries.

Jenny holds a Bachelor of Business Administration and Management and a Master of Business Administration from the University of Phoenix

Jenny currently serves as Lone Star's Director of Education, and she is also a charter member of the Lone Star Desk and Derrick Club of Dallas.
